

Pacifica City Council District 1 Michelle Murry

RECEIVED

AUG 07 2024

CITY CLERK

I'm running for Pacifica City Council in District 1 because I love our community! As a registered nurse in the emergency department, I know first-handedly the profound intersect between health care, mental health, housing, cost of living, and the numerous other important needs of our local Bay Area communities. As a committed citizen I returned to school where I studied government and policy in order to further equip myself with the tools needed to serve my neighbors and I have dedicated myself to working as a member of my communities through organizing and participating in projects such as blood drives, LGBTQ+ outreach, and service projects for some of our most vulnerable neighbors and environments. While living here, I have also witnessed the changes in our precious coastal lands due to climate crisis, the littering of our parks and beaches with plastics, and the inefficient use of irreplaceable resources. As your representative, I will fiercely advocate for our most pressing concerns, including promoting affordable housing, providing resources for vulnerable community members, supporting new and existing small businesses, maintaining the beauty and safety of our public spaces, and encouraging strategic investments to create neighborhoods and infrastructure that are more resilient to change.
