Candidate Statement: Mark Hubbell

CITY CLERK

Thirty-six years ago, I bought my home in the Back of The Valley. I care greatly for this place — its people and our natural environment.

The relatively recent decision for Pacifica to migrate from an 'at-large' to a district representation system of governance has opened the opportunity for councilmembers to more closely represent their neighborhoods. That change was the impetus for my decision to seek this opportunity to work for the citizens of District 4.

\*Wildfire danger in our District 4 neighborhoods needs to be addressed. Some of our neighbors have already received cancellation notices from their homeowners' insurance companies.

\*Let's keep our families together with new technologies and favorable legislation for accessory dwelling units, ADU, type affordable housing solutions.

\*We must preserve our open space for tourism and future generations.

The 2024 election will be crucial for Pacifica. I would be very proud to represent our district on the City Council — working for a better future — Mark.
