OTHER COMMENTS

- What will happen to the existing trees on the current site?
- How is pedestrian and vehicular access accommodated on the existing site?
- How is parking accommodated on all of the sites?
- How would the hours split in strategy 2?
- What are the operational strategies?

EXISTING LIBRARIES ANALYSIS

SANCHEZ LIBRARY

YEAR BUILT: 1981 AREA: ~4,000 SF

ACCESSIBILITY	LIFE-SAFETY	BUILDING SYSTEMS	ARCHITECTURAL	FUNCTIONALITY
Non-Conforming Parking	Insufficient Fire Life-Safety	Poorly Integrated Telecom Upgrades	Worn Finishes	Inadequate Storage
Non-Conforming Areas	Potential Structural Deficiencies	Recently Updated HVAC	Damaged Window Screen	Undersized Spaces for Collections
Non-Conforming Devices/Hardware	Unanchored Tall Shelving	Recently Updated Plumbing	Damaged Hardware	Inadequate Seating
	Qualifies as a Benchmark Building	Inefficient Lighting Systems	General Good Condition	Inadequate Program Spaces
		Insufficient Air Circulation		Undersized Entry/Service Space
				Undersized Staff Space

<p>Building is mostly accessible</p>	<p>Building is considered structurally Life-Safe</p>	<p>Some systems require upgrades</p>	<p>Finishes need replacement, but the building is in decent condition</p>	<p>Library is undersized for current and future needs</p>
